

Doctrina et Usu in Business Law

Editors:

Tomáš PERÁČEK

Activity

Graduate of the Faculty of Law of the Comenius University in Bratislava. Since graduating from this faculty in 2006, he has worked as a trainee lawyer. In 2009, he successfully passed the bar exam of the Slovak Bar Association with the evaluation "passed excellent", on the basis of which, since 1 January 2010, he practiced his own law practice. He currently works at the Department of Information Systems, Faculty of Management, Comenius University Bratislava as a professor. He is a member of the Academic Senate and the Scientific Board of the Faculty of Management of the Comenius University Bratislava. At present, in the position of the co-investigator, he actively participates in solving current scientific issues within the framework of APVV grants [19-0502] "Effective Land Adjustment"; APVV [18-0534] "Legislation on Spent Nuclear Fuel Management", VEGA [1/0757/20] "Means of direct democracy in the conditions of the smart cities and municipalities"; VEGA [1/0320/21] "The role of the universities in building the knowledge economy".

Publications

As part of his scientific research activities, he focuses mainly on the legislative side of the issues of securities, business, trading companies and employment. He is the author and co-author of more than 160 scientific articles and works, of which eighty are registered in the world's scientific databases such as Web of Science and Scopus, including twenty-one articles in foreign database journals. Dozens of foreign responses in WoS and Scopus, as well as invited reviews of articles published in journals registered in these scientific databases, show not only domestic but especially international recognition of his research activities. Currently, he is a guest editor of special issues of the journals Administrative Sciences and Sustainability registered in the Web of Science and Scopus databases. Building one's own science school in the field of "economics and management" is reflected in the successfully defended dissertations of three doctoral students. He currently coaches six doctoral students in this field.
